EgoTECH

MAINTENANCE AGREEMENT

EgoTECH PDF Vault — Document & Image Storage System

Document Type	Software Maintenance Agreement (SMA)
Project Name	EgoTECH PDF Vault
Organization	EgoTECH
Version	1.0
Date	October 20, 2026

Preamble

This Software Maintenance Agreement ("Agreement") is entered into as of the date signed below ("Effective Date") between EgoTECH ("Service Provider") and the client organization identified in the signature block below ("Client"). This Agreement governs the ongoing maintenance, support, and update services provided by the Service Provider for the EgoTECH PDF Vault application ("Software"), version 1.0.

Both parties agree to the terms and conditions set forth in this Agreement. This Agreement becomes effective upon signature by authorized representatives of both parties.

1. Definitions

Term	Definition
Software	The EgoTECH PDF Vault application, including backend (FastAPI), frontend (React/Vite), and database (SQLite).
Maintenance	All activities to keep the Software operational, including bug fixes, security patches, and dependency updates.
Enhancement	A new feature or significant functional change not present in v1.0; may require a separate Statement of Work.
Incident	An unexpected failure, error, or degradation of Software functionality reported by the Client.
Business Hours	Monday to Friday, 09:00 – 18:00 (Client's local time), excluding public holidays.
Downtime	A period during which the Software is not accessible to end-users due to a confirmed critical incident.
SLA	Service Level Agreement — the agreed response and resolution targets defined in Section 4.
Release	A packaged update to the Software that may include bug fixes, patches, or minor improvements.
Version Upgrade	A major new version of the Software requiring client approval and separate scheduling.

2. Scope of Maintenance Services

The Service Provider agrees to provide the following maintenance services for the duration of this Agreement:

2.1 Corrective Maintenance (Bug Fixes)

- Investigating and resolving confirmed defects in the Software that cause it to deviate from documented requirements.
- Fixing errors in the FastAPI backend, React frontend, SQLAlchemy ORM layer, and file-handling routines.
- Addressing database integrity issues or migration failures.

- Correcting incorrect API responses or broken API endpoints.

2.2 Security Maintenance

- Monitoring published CVEs (Common Vulnerabilities and Exposures) affecting the Software's dependencies.
- Applying security patches to Python packages (fastapi, uvicorn, sqlalchemy, pydantic-settings, python-multipart) and npm packages (react, vite, lucide-react).
- Updating JWT signing configuration or rotating secrets upon request.
- Reviewing and hardening CORS, file-upload validation, and authentication logic as vulnerabilities are discovered.

2.3 Preventive Maintenance

- Quarterly review of all third-party dependencies for outdated versions.
- Annual review of the database schema and storage structure for optimization opportunities.
- Log review and cleanup recommendations on a semi-annual basis.
- Storage utilization monitoring reports delivered monthly.

2.4 Adaptive Maintenance

- Updating the Software to remain compatible with new major versions of Python (3.x) and Node.js (LTS releases).
- Adapting environment configuration as the Client's infrastructure changes (e.g., server migration, OS upgrade).
- Updating CORS and API configuration for new frontend deployment origins.

2.5 Minor Enhancements (Included)

- UI copy changes, label updates, and minor styling adjustments (up to 2 hours per quarter included at no extra charge).
- Addition of new allowed file extensions to the image upload module.
- Adjustments to configurable parameters (MAX_UPLOAD_MB, AUTH_TOKEN_MINUTES) and related documentation.

2.6 Services Excluded from this Agreement

- Development of major new features or modules (requires a separate Statement of Work).
- Data recovery from Client-caused deletion or corruption without a valid backup.
- Infrastructure management (server provisioning, OS administration, network configuration) unless agreed separately.
- Integration with third-party services not present in v1.0 (e.g., cloud storage, payment gateways).
- Support for environments not meeting the minimum system requirements documented in the SRS.

3. Support Channels & Hours

Channel	Details	Availability
Email	support@egotech.com	24 / 7 (monitored Business Hours)
Issue Tracker	Shared project board (GitHub Issues or Jira)	24 / 7 (responses during Business Hours)
Phone / Video	Scheduled calls for critical incidents	Business Hours (by appointment)
Emergency	Emergency contact number provided on signing	24 / 7 for Critical (P1) incidents

4. Service Level Agreement (SLA)

4.1 Incident Priority Definitions

Priority	Name	Description	Example
P1	Critical	Complete loss of core functionality; all users affected; no workaround.	Backend server down; login completely broken.
P2	High	Major feature broken; significant number of users affected; workaround possible.	PDF upload failing for all users.
P3	Medium	Feature partially broken; limited user impact; workaround exists.	Search returns incorrect results in some cases.
P4	Low	Minor issue; cosmetic defect; minimal user impact.	UI label misspelling; minor layout misalignment.

4.2 Response & Resolution Targets

Priority	Initial Response	Target Resolution	Update Frequency
P1 — Critical	1 Business Hour	4 Business Hours	Every 1 hour until resolved
P2 — High	4 Business Hours	2 Business Days	Every 4 hours until resolved
P3 — Medium	1 Business Day	5 Business Days	Every 2 days
P4 — Low	2 Business Days	Next planned release	Weekly summary

Response times are measured from the time the incident is formally logged via an agreed support channel during Business Hours. Incidents logged outside Business Hours are treated as received at the start of the next Business Day, except P1 Critical incidents which are monitored around the clock.

4.3 SLA Exclusions

SLA targets do not apply under the following conditions:

- Incidents caused by Client-side changes (server modifications, manual database edits, unauthorized code changes).
- Force majeure events (natural disasters, power outages, internet infrastructure failures).
- Scheduled maintenance windows (minimum 48 hours' notice provided to the Client).
- Incidents in environments not meeting minimum system requirements.

5. Maintenance Schedule & Releases

Activity	Frequency	Notice Required
Security patch releases	As needed	48 hours (or immediate for critical CVEs)
Bug fix releases	Monthly	5 Business Days
Dependency update review	Quarterly	7 Business Days
Planned maintenance window	As needed	48 Business Hours minimum
Scheduled version upgrade	Annually	30 days (Client approval required)
Storage utilization report	Monthly	N/A (delivered automatically)

6. Client Responsibilities

The Client agrees to:

1. Designate a named technical contact responsible for coordinating with the Service Provider.
2. Report incidents promptly via an agreed support channel with sufficient detail (steps to reproduce, screenshots, error messages).
3. Apply recommended patches and updates within 10 Business Days of release.
4. Maintain valid backups of the database file and storage directory per the schedule recommended in Section 7.
5. Notify the Service Provider at least 10 Business Days before any planned server migration or infrastructure change.
6. Ensure the deployment environment continues to meet minimum system requirements.
7. Provide access credentials and environment access necessary for troubleshooting within 2 hours of a P1 incident.

7. Backup & Data Management Recommendations

Item	Recommended Frequency	Retention Period
SQLite database (pdf_vault.db)	Daily	30 days minimum
PDF storage directory (pdfs/)	Daily	30 days minimum
Image storage directory (images/)	Daily	30 days minimum
Application configuration (.env)	After every change	Indefinitely (encrypted)
Full server snapshot	Weekly	4 weekly snapshots

The Service Provider will advise on backup procedures but is not responsible for executing backups unless explicitly contracted under a separate managed-services agreement.

8. Fees & Payment Terms

Maintenance services under this Agreement are provided under the following commercial terms:

Service Tier	Coverage	Fee
Basic	Corrective & Security maintenance only	Contact EgoTECH for pricing
Standard	All maintenance types + SLA (P1–P4)	Contact EgoTECH for pricing
Premium	Standard + minor enhancements + priority support	Contact EgoTECH for pricing

- Invoices are issued monthly in advance.
- Payment is due within 30 calendar days of invoice date.
- Late payments accrue interest at 1.5% per month.
- Work outside the scope of this Agreement will be quoted and invoiced separately.

9. Intellectual Property

All source code, documentation, and deliverables produced under this Agreement remain the intellectual property of EgoTECH unless otherwise agreed in writing. The Client is granted a non-exclusive, non-transferable license to use the Software for its internal business purposes for the duration of this Agreement.

10. Confidentiality

Both parties agree to keep confidential all proprietary information shared during the performance of this Agreement, including but not limited to source code, credentials, architecture details, and business data. This obligation survives termination of the Agreement for a period of three (3) years.

11. Limitation of Liability

The Service Provider's total liability under this Agreement shall not exceed the total fees paid by the Client in the three (3) months preceding the claim. In no event shall either party be liable for indirect, incidental, special, or consequential damages.

12. Term & Termination

- This Agreement is effective for twelve (12) months from the Effective Date and renews automatically for successive 12-month periods unless terminated.
- Either party may terminate this Agreement by providing thirty (30) days' written notice prior to the renewal date.
- Either party may terminate immediately in writing if the other party materially breaches the Agreement and fails to remedy the breach within fifteen (15) business days of written notice.

- Upon termination, the Service Provider will provide a final handover package including all documentation, credentials, and the latest codebase.

13. Governing Law & Dispute Resolution

This Agreement shall be governed by the laws of the jurisdiction in which EgoTECH is registered. Any disputes arising from this Agreement shall first be addressed through good-faith negotiation. If unresolved within thirty (30) days, disputes shall be submitted to binding arbitration in accordance with the rules of the applicable arbitration body.

14. Signatures

By signing below, the authorized representatives of both parties agree to the terms and conditions set forth in this Software Maintenance Agreement.
